ASTTBC Sponsors Robocup – Friday Nov 30 at Okanagan College

ASTTBC is a lead sponsor of this annual competition, designed to promote technology education and careers. "The Robocup competition is a natural fit for ASTTBC as we work together with Okanagan College to promote tech careers," said ASTTBC Executive Director, John Leech. "There is a real need to attract more young people to technology careers in order to address the skills shortage."

ASTTBC has been taking a lead role in recent years to encourage more youth to embrace subjects that tie to STEM, Science, Technology Engineering, and Math.
