ASTTBC Assists with Judging at Parksville Science Fair

ASTTBC Member, Nancy Fowler, AScT at work as Judge at the School District 69 Science Fair

What enthusiasm!! School District 69 held their Science Fair on March 1, 2013 in Parksville. This year, the School District's Elementary and Middle schools sent 165 projects to be judged by 35 volunteer judges from the community.

Judges representing ASTTBC were Bruce and Nancy Fowler and with every project being judged twice, each judge was responsible for about 10 projects. The event was a huge success. Nancy says, "I learned something from every project. The students were so enthusiastic and it was wonderful to see and hear the excitement about science and technology. Hopefully all of these students will continue their interest in science".
