

ASTTBC 2014 AGM & Conference – A Great Success!

ASTTBC President, Dave Rutherford, AScT, BCLS, CLS presents the President's Report at the 2014 Annual General Meeting and Conference

Over 200 Members and Stakeholders joined the ASTTBC Council and Staff for the 2014 Annual General Meeting that took place Friday May 23rd at the Sheraton Guildford in Surrey BC. Over 100 registered to join us from across the province by Webinar.

The Panel presentations were well received “The morning panel’s comments were thoughtful, informative and leading edge leaving a level of comfort that the 1 million job openings and employee need is being addressed by secondary schools with a focus on STEM. I was impressed with the Site C dam info from BC Hydro, I had no idea it was as impressive as it is, (I also learned they have oodles of LMI information that we may be able to persuade them to share)” commented MJ Whitmarsh (TECC Board Member and Senior Consultant of Whitmarsh Enterprises) – one of many positive remarks about the day.

The Luncheon saw Award Presentations with good food and plenty of fun!

Further details to follow in the June issue – including more photos and links to the audio and slide presentations of the Panel Discussions.
