The Speaker of the BC Legislature, The Honourable [Linda Reid](#) (MLA for Richmond East), connected with ASTTBC at the Association of Consulting Engineering Companies BC awards dinner.

“It was great to say hello to Linda, who has been a longtime friend of ASTTBC, supporting and encouraging ASTTBC as it carries out its role as a professional regulatory body and in the promotion of technology education and careers,” said ASTTBC CEO John Leech.

Linda renewed contact with ASTTBC President Dave Rutherford and met Registrar Charles Joyner. “This brief conversation provided little opportunity for ASTTBC to brief Linda on current initiatives but helped profile ASTTBC’s connection with consulting engineering companies”. Linda was first elected in 2001 and is the longest serving Member in the current parliament.
