

Stepping Up to Fuel BC's Economy

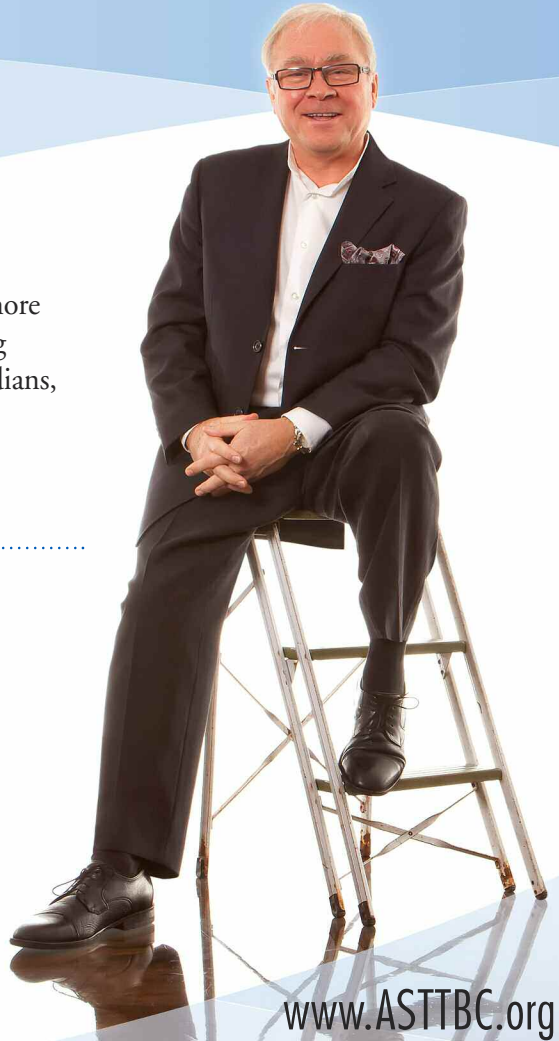

“THE BC JOBS PLAN points to the need for many more engineering technologists and technicians. For young graduates, male and female, First Nations and new Canadians, there's no better time to tap into a technology career.”

John Leech, ASCT, CAE
Chief Executive Officer, ASTTBC

The Hon. Shirley Bond, Minister of Jobs, Tourism and Skills Training, and Minister Responsible for Labour

“This is a great time to be an applied science technologist or technician. BC's economy is growing in key sectors such as natural gas, mining, forestry, green technology and transportation. In fact, we anticipate more than 1 million job openings by 2020, and people with technical skills will be in high demand. As Jobs Minister, I want to ensure we are putting British Columbians first in line for technology jobs – now and in the future.”
