

ASTTBC Encourages Members to Support Future Technologists & Technicians

Camosun College is looking for support from ASTTBC Members and their employers for the future Grads from the Civil, Mechanical and Computer Systems Technology programs. Members can show their support by participating in two upcoming events that will assist the graduates to prepare for the working world.

You need not to be hiring to participate in these sessions but rather willing to share your **expertise**. Please review the session days, times and technology field that you are associated with and contact Bella at Camosun College – phone: 250-370-4410 or email: nichollsb@camosun.bc.ca

Networking Event

A one hour speed meeting session in which employers and technology professionals network with students.

Mechanical Engineering: Thursday January 29, 2015 4:30-5:20pm

Computer Systems Technology: Friday January 30, 2015 10:30-11:20am

CIVIL Engineering: Friday January 30, 2015 3:30-4:20pm

Mock Interview Event

A two hour session in which employer representatives conduct half-hour mock interviews with individual students.

Mechanical Engineering: Thursday February 19, 2015 3:30 - 5:20 pm

Computer Systems Technology: Friday February 20, 2015 9:30-11:20am

CIVIL Engineering: Friday February 20, 2015 2:30-4:20pm

All events will be held at the Interurban Campus: 4461 Interurban Road, Victoria.

Why participate?

As a Co-op supporter you are playing a pivotal role in our students' learning experience. Co-op is a partnership that offers mutual benefits to both the student and the employer. Some of the benefits of participating in the seminar events include:

- Give students valuable feedback on their industry knowledge, networking and interview skills
- Showcase your expertise and expectations to up-and-coming professionals

- *Share your career path with students to inspire possibility in their own careers*
- *Learn about the College's instructional material*
- *Meet your future employees*

Jason Jung, AScT, Manager, Professional Practice & Development for ASTTBC, encourages our Members to get behind this initiative. “What a perfect opportunity for employers to support our future Technologists and Technicians. With the looming skills shortage this gives you a jump on the emerging talent that could be a fit for your organization. It also helps the graduates in their transition from student to employee.”

We ask our Members to give serious thought to this endeavor and encourage your employers to participate.

Contact Bella at 250-370-4410 or nichollsb@camousan.bc.ca to take part!
