

Quality Science Education in BC

ASTTBC was pleased to sponsor the 2015 BC Science Teachers' Association (BCScTA) Catalyst Conference for BC science educators, which was held at Cambie Secondary School, Richmond, BC, on October 23rd, 2015.

The BC Science Teachers' Association is a volunteer organization run by practicing science teachers from around the province. The association promotes and supports quality science education in BC through professional development workshops, conferences and maintaining a website and email lists for science education at all levels, from kindergarten through post-secondary education.

“Igniting a sense of passion and curiosity of science in students is key to creating a scientifically literate population, which is a vital aspect of a thriving society” states Jacqueline de Raadt, Manager, Executive Initiatives at ASTTBC “We are pleased to sponsor the Catalyst convention which supports science teachers in delivering a strong science curriculum in BC schools”
