

Professional Technologist Title Available Early 2016

ASTTBC is working diligently to put the PTech designation in place for the New Year.

The policies have been approved. The Board has been appointed and they will make application for consideration by the ASTTBC Council at the Council meeting in January. Additional work is required on the database and some fine tuning of processes.

It is anticipated that ASTTBC will be ready to accept applications before **March 2016**. Please stand by for updates.
