

ASTTBC Partners on Labour Market Study: Building on ASTTBC Report

Three associations are partnering to produce targeted labour market information on engineers, technicians and technologists. The study, involving APEGBC, ASTTBC and the Association of Consulting Engineering Companies - BC (ACEC-BC) and managed by the Asia Pacific Gateway Skills Table (APGST), is nearing completion and will likely be released before year end.

For ASTTBC the current project is a follow up to the ASTTBC Report '*A Strategic Direction for Technology Education and Skills for British Columbia*'. In the photo above, MLA Ralph Sultan, PEng, an Honorary Member of ASTTBC (right), reviews the ASTTBC report with ASTTBC CEO John Leech. Ralph is MLA for West Vancouver-Capilano
