

Public Representatives Report Tabled at ASTTBC AGM & with Minister Wilkinson

The Public Representatives (PR) serving on ASTTBC Council decided early on that they would prepare a report outlining areas warranting commendation and recommendations as part of their service to the Association and to the public.

At AGM 2015 the PRs tabled their report and subsequently sent the report to the Minister of Advanced Education, the Honourable Andrew Wilkinson, who has oversight of the ASTT Act. The Report is made available to all Members of the BC Legislature and the BC Members of Parliament. The Report is being reviewed by ASTTBC Council for possible action.

The Report generally commends ASTTBC on a number of fronts and offers recommendations. About the governance of the Association and on the participation of Public representatives, the Report indicated, “ASTTBC Council meetings run openly, transparently, professionally and efficiently. The Public representatives are afforded the opportunity to fully engage and participate in providing contributions, opinions and recommendations to Council governance, and decision-making relative to issues of public interest.”

The Report focuses on a few key areas:

- * *Professional regulation & legislation*
- * *Rights to practice*
- * *Professional standards and regulation*
- * *Professional recognition*
- * *International recognition & certification*
