National Study on Technical Disciplines Launched:
ASTTBC Members Invited to Participate

Technology Professionals Canada (TPC) is undertaking a study on the technical disciplines within our Profession, involving research, stakeholder engagement and analysis. They are seeking to understand the value that industry, regulators and professionals hold for specific certifications, where new disciplines are needed – and alternatively, would the professional designation without an associated technology be sufficient to meet the needs of the market?

ASTTBC members are encouraged to lend a hand as Technology Professionals Canada, a national affiliation of provincial professional associations, launches this study on technical disciplines.
