

## Fun STEM Apps for Kids!

[Imagination Soup](#) an educational website from Melissa Taylor, mom, writer, teacher & blogger, offers a comprehensive list of cool new STEM apps. These apps are available for both Apple and Android devices and offer your children a practical and FUN way to learn about science & technology and how it applies to everyday life.

Science, Technology, Engineering & Math (STEM) apps are available for kids as young as two and right on up to age thirteen. What a great opportunity to expose your children (boys AND girls) to the wonders of science!
