Internationally Trained Professionals Project UPDATE

ASTTBC received a grant from the BC Government to address issues faced by Internationally Trained Professionals (ITP) as they build a meaningful career in BC. In the past couple of months ASTTBC has:

- ❖ Hosted ITP information sessions at several locations throughout BC
- ❖ Asked ITPs to complete a survey to help ASTTBC better know our ITPs and identify issues
- ❖ Convened a webinar to update ITPs and other members about our work
- ❖ Engaged with other organizations regarding mentoring schemes. ASTTBC plans to launch a mentoring program
- ❖ Commenced work on a new ITP web site to be launched in May

ASTTBC is on track to have a number of new services and programs in place in support of the many ITPs who find their way to BC with plans to make Canada their new home. Stay tuned for new developments.
