

Bill Billups, AScT, SIZZLES Through Summer with ASTTBC Apron

The bar-b-que experience was given a major lift this past summer with many from ASTTBC sporting the new TECHNOLOGY SIZZLES apron. The new slogan, 'TECHNOLOGY SIZZLES', will help showcase ASTTBC's efforts as we promote technology education and careers over the next 5 years. Launched at the 2014 Technology Awards and Recognition Celebration, TECHNOLOGY SIZZLES will appear as part of ASTTBC's literature and, yes, some of our 'swag', such as the new BBQ apron. ASTTBC staff brought together the slogan and the tag line 'Get Cooking With ASTTBC' and plastered it on fancy aprons which, by the way, work equally good outside as well as in the kitchen.

ASTTBC long time member and active supporter, Bill Billups, AScT, sent us a picture sporting the new apron and an ASTTBC cap. Bill sent us a note and a challenge, "Technology is sizzling on a BRAND NEW BBQ at the Billups' house. I challenge all ASTTBC members to get sizzling and send in their best sizzle shots." While it was a little late to get rolling in 2014, the ASTTBC CEO says staff has been thinking about a photo contest for some time and will seriously look into launching something in 2015.....stay tuned!
