

## **ASTTBC – Building Design = Renewal 2014**

ASTTBC convened a Webinar on December 3, 2013 with 45 residential and building designers online. Executive Director John Leech led the presentation and dialogue, focusing on the current environment and looking ahead to the next steps as ASTTBC re-engages with designers.

The members connecting through the Webinar agreed that ASTTBC should renew its work in recognizing and promoting professional registration and recognition of Certified Residential Designer (CRD) and Registered Building Designer (RBD). The Webinar participants agreed ASTTBC should re-ignite within ASTTBC to attend to the interests of building designers.

As a result of the dialogue ASTTBC will bring together a number of volunteers to work to renew, possibly under the banner 'ASTTBC-BD'. While we have a list of members willing to help out, any other ASTTBC members interested in volunteering should send an email to [techinfo@asttbc.org](mailto:techinfo@asttbc.org) and mention that you wish to assist with the renewal of building design registration and recognition.
