

Technology Professionals GREENING BC's FUTURE

"As Capital Projects Manager, I'm directly involved in planning and development of the Bio-Energy Program for the University of Northern BC. I'm also managing construction of a major bio-energy plant that will heat core campus buildings. This project will reduce UNBC's natural gas consumption by 85% and decrease greenhouse gas emissions by 3500 tonnes."

Doug Carter, CTech
Capital Projects Manager, UNBC
and President, ASTTBC

John E. Leech, ASCT, CAE
Executive Director, ASTTBC

Qualified Techs in BC...
