Glen Duxbury, CHI Featured in BIV

ASTTBC Certified House Inspector (CHI) and active volunteer, **Glenn Duxbury, CHI**, was featured in a fall issue of [Business in Vancouver](#).

The article focused on the Metro Vancouver home renovation market. Glenn was interviewed about the need for house inspections as homeowners consider renovations. The article described the \$4 billion home renovation market as a 'wild west' environment where some shady practices result in the homeowner out of pocket and left with an unsafe home.

"Metro Vancouver's industry is a Wild West," said Glenn, who was working with a couple as they regrouped to get their renovation work back on track. ASTTBC encourages homeowners undertaking house renovations to consult with an ASTTBC-registered house / [property inspector](#) or an ASTTBC - [registered building designer](#).
