Job Growth Remains Strong for Technology Professionals

A Bank of Canada Survey points out that Job Growth Employers, especially small and medium size enterprises (SME), are positive in terms of job growth in the near term according to the most recent quarterly survey. Hiring intentions stood at 59% up from 53% in the last quarterly survey. "This stat says career prospects for ASTTBC - registered Technology Professionals remains strong, as we expect," said ASTTBC's Executive Director, John Leech. "Technologists, Technicians and most Technical Specialists enjoy recession-proof careers." Leech asserts that from what he sees, unemployment for ASTTBC members and registrants is among the lowest of all fields. (Stats from Financial Post, July 10, 2012)
