Joseph Cave, CTech Member #33 Receives Life Membership

For his considerable achievements as a technology professional and his commitment to ASTTBC for over 50 years, Joe Cave, CTech (right in photo) received Life Membership. ASTTBC's Executive Director, John Leech, AScT, CAE, presented the award on behalf of ASTTBC Council. "We have been trying to connect with Joe to present him with his certificate," said Leech. "He is a most deserving recipient and with a double digit member number, a rare breed indeed." John continued to explain that ASTTBC finally had to schedule a member meeting around Joe's availability. The two connected along with 70 ASTTBC members in Nanaimo. At 70ish Joe continues to travel the globe in his role as a senior technical specialist with SNC-Lavalin. Over his 50 plus years career Joe has offered his expertise in industrial, commercial and municipal engineering technology. "Joe is truly an inspiration for all in our profession," concluded Leech.
