ASTTBC Members Meet in Ft St. John

ASTTBC members gathered for breakfast in Ft St John to get an update from ASTTBC Executive Director, John Leech. The meeting was organized by Community Representative Dean Zimmer, ASCT, RTMgr. Dean commented, *“it was great to have John come up to FSJ... it has been a long time since his last visit. While our numbers are not large, we are a dedicated group of members in the north. And it is good to hear first-hand what is happening within ASTTBC”*.

Also joining the meeting was Lori Ackerman, Executive Director with Sci-Tech, the regional science and technology council. Lori spoke about the role of Sci-Tech and linkages with ASTTBC, including CPD offerings which are passed along to ASTTBC members and other professional associations in the area. John spoke about ASTTBC's key initiatives and plans to be more active in all regions of the province. John promised he would return to the area again in 2011.
