ASTTBC-BCIT-VBE MoA Receives Media Coverage

ASTTBC signed a Memorandum of Agreement (MoA) with Vancouver Board of Education and BCIT to deliver technology training in K-12 leading to enhanced awareness of tech careers and special enrolment consideration at BCIT. As well, ASTTBC will issue a Certificate to high school graduates who complete the K-12 technology program.

ASTTBC is working with other School Districts to secure similar agreements. The Kamloops School District will launch a Trades & Technology High School in 2014 and offer technology programming that will lead to technologist Diploma programming at Thompson Rivers University in Kamloops and Okanagan College in Kelowna. The Kamloops SD opened the Bert Edwards Science & Technology Elementary School four years ago, and ASTTBC was involved with that initiative.

There were many tweets on the signing of the MoA as well as a [feature](#) in the Vancouver Sun. The story was also covered by [Global News](#)
