ASTTBC Member Bob Prasad, AScT, RTMgr Receives Service Award

Out-going ASTTBC President Bill MacPherson, AScT (L) presenting Service Award to Bob Prasad, AScT, RTMgr

At the 2013 AGM Awards Luncheon, ASTTBC Member, Bob Prasad, AScT, RTMgr was presented with an ASTTBC Service Award.

Bob Prasad is a Director with **CH2M HILL**, an international Consulting Engineering Firm with 30,000 employees and head office in Denver, Colorado.

With 27 years of experience in electrical, instrumentation, and civil and structural design engineering in the pulp and paper, and oil and gas industries, Bob's title is Business Development Director for the Energy and Chemicals Business Group in western Canada.

Bob has recently assisted in solving challenges faced by client Spectra Energy, at its Fort Nelson project. He led a team preparing for a landmark West Coast Express Pipeline to take North Eastern BC natural gas to the West Coast for export to Asia, a multi-billion dollar project.

Currently a Council Director of ASTTBC, Bob was recognized with a Top in Technology award in 2009. A staunch supporter of his professional association, Bob always brings a positive attitude to his teamwork.
