Dear CPWI Member,

The Public Works Inspectors Society, Public Works Association of BC and Applied Science Technologists and Technicians of BC have been working very closely over the past year to bring the three groups closer together. We are very excited to announce that a Memorandum of Agreement will be signed by all parties and the PWIS will soon merge with the PWABC.

This transition will be seamless for you the member; application, certification and reclassification processes will remain as they are; you will still receive your invoice from ASTTBC. The benefit will be that we expect to enhance your membership in the near future by offering additional training, networking and support for the Certified Public Works Inspector.

Please feel free to contact Monty, David or the PWABC Executive Director Jeannette Austin (jaustin.djc@gmail.com or 250.819.6290) for further information.

Sincerely,
