

Robert Miller, CSO Recipient of ASTTBC Service Award

Out-going ASTTBC President Bill MacPherson, ASCT (L) presenting Service Award to Robert Miller, CSO, Dip.T, CRSP, MEd

Robert Miller, CSO, Dip.T, CRSP, MEd, was presented with an ASTTBC Service Award at the 2013 AGM Awards Luncheon.

As Head of BCIT's Occupational Health and Safety Program, Rob Miller administers and teaches in the Diploma Program, and tutors students in the distance education certificate program.

Dedicated to educating health and safety supervisors, Rob has instructed in the BCIT program for 14 years and headed the program for eight years.

His credentials include a BCIT Technology Diploma, a BA from University of the Fraser Valley, and Master of Education degree from Simon Fraser University. He maintains professional designation as a Canadian Registered Safety Professional.

Before joining BCIT, Rob coordinated a major Provincial safety and environmental management program to "collect, process, and dispose of household used paints, spent solvents, and used pesticides". His role included supervising construction and deconstruction of 100 mobile collection depots around the province

Rob has held executive office in the Canadian Society of Safety Engineering. His service to ASTTBC has included chairing our Construction Safety Officer (CSO) panel.
