ASTTBC Sponsors WoodWorks Awards/Meets Minister Bell

(Left to right) Marita Luk, Minister Bell, John Leech, Trevor Doyle and Kim Wahlstrom

Celebrating design in wood is the purpose of the Woodworks! Awards... and ASTTBC is involved as a sponsor of the Green Building Award.

"ASTTBC sponsorship of this award is one way of reaching out to the many communities/sectors where ASTTBC members work, said Executive Director, John Leech. ASTTBC members are involved with the many nominated projects, providing design, estimating, construction and other services within the various teams.

"Minister of Jobs, Tourism and Innovation, Pat Bell, was on hand to congratulate all nominees and promote the use of wood as a building material. ASTTBC took a moment to say hello to the Minister.

Attending the evening event was ASTTBC President Bill MacPherson, Executive Director John Leech, Manager of Marketing and Communications Anne Sharp and Manager, Member and Program Development, Jason Jung. Sitting at the ASTTBC table was Marita Luk, Business development Manager for the BCIT School of Construction and Environment and two Building Technology students, Kim Wahlstrom and Trevor Doyle.
