

## CIVIL ENGINEERING TECHNOLOGIST

**Northwest Hydraulic Consultants (NHC)** is an international firm of civil engineers and geoscientists providing professional services for the development, management and protection of water resources. We are currently seeking a civil engineering technologist candidate with strong skills in drafting, geomatics and surveying to participate in our river engineering, hydrology and geomorphology projects within our North Vancouver, BC office. Candidates with over 3 years of pertinent experience are encouraged to apply.

Proficiency with AutoCAD and Civil3D, survey processing software and digital terrain modelling is required; and experience working with GIS, total station surveys, GPS-based surveys (static, RTK and DGPS), and hydrographic surveying will be a definite asset.

The successful candidates will be self-motivated individuals with a demonstrated ability to work independently and to prioritize multiple tasks to meet tight deadlines. He/she will demonstrate a commitment to high quality, client service and excellent communication and organizational skills, and will be expected to use his/her skills to improve the quality and efficiency of our products

NHC offers a competitive salary, comprehensive benefits package, including annual merit-based bonuses. Most importantly, we offer the opportunity to work with like-minded individuals in an independent and specialized firm on technically challenging and satisfying real-world projects.

If you are interested in joining our team, resumes can be sent in confidence to [CGriffiths@nhcweb.com](mailto:CGriffiths@nhcweb.com).

Closing Date: n/a

*Only applicants selected for an interview will be contacted. Please visit our website at [www.nhcweb.com](http://www.nhcweb.com) for more information.*
