

Career Opportunity

Position: Junior Civil Engineering Technologist/Technician

Locations: Nanaimo

J.E. Anderson & Associates is a mid-size land surveying, engineering, and land development consulting company providing services to both the private and public clients from offices in Victoria, Nanaimo, Parksville and Campbell River. For over 55 years, we have represented a diverse range of clients involved in unique development projects throughout Vancouver Island.

We offer comprehensive wage and benefits packages to qualified people, educational and professional development, and also offer challenging opportunities to our employees. We are seeking enthusiastic and energetic people who want to be part of a dynamic working environment.

J.E. Anderson & Associates has an ongoing interest for Civil Engineering Technologists/Technicians. This role provides challenging opportunities on many different types of projects, and is excellent for people wanting to have flexible work environments, both indoors and outside.

Responsibilities:

- Assist in the production of civil engineering drawings, designs, specifications and cost estimates on land development and municipal projects
- Develop design drawings from conceptual and preliminary plans using AutoDesk Civil 3D
- Provide site services and inspection reporting
- Calculate and provide construction survey layout

Qualifications:

- Diploma in Civil Engineering Technology and eligible for registration with ASTTBC
- Civil 3D experience preferred as a designer in municipal and land development projects
- Excellent verbal and written communication skills
- Works well in a team environment

Please submit cover letter, resume and references in confidence to Jeff Tomlinson at jwt@jeanderson.com.
