

Design Technician Infrastructure Delivery

Build the best!

The City of Kelowna is seeking an experienced Civil Engineering Design Technician to join our Infrastructure Delivery Department in the delivery of a safe, vibrant, and sustainable city.

With a Civil Engineering Technology Diploma or Degree and a minimum of five years of experience, you will be responsible for design and project management support for a wide variety of the City's capital projects. Typical projects include road and bridge improvements, sidewalks, bike paths and utility upgrading for water, drainage and sewer systems. The successful incumbent will be responsible for liaising with consultants, contractors, external stakeholders and various City departments on all aspects of projects and resource scheduling. For this position, we are seeking someone with extensive design and software experience as well as demonstrated experience in construction inspection and project management.

Help Kelowna to become the best mid-sized City in North America! We offer career/professional development, progressive employment practices, and a great work environment. This is a CUPE bargaining unit position and offers a salary range starting at \$35.50 per hour with a 5-step progression to \$40.85 per hour (based on a 40-hour work week) and includes a competitive benefits and pension package.

Apply online at kelowna.ca/careers by May 25, 2017.

Applicants not contacted within three weeks of the competition closing date are thanked for their interest.
