

CITY OF **CHILLIWACK**

ENGINEERING TECHNOLOGIST (WATER & WASTEWATER)

If you want to work for a forward-thinking, creative employer and in a fast paced work environment then this job is for you. The City of Chilliwack takes great pride in its focus on providing excellent service to its citizens and we are looking for a like-minded candidate to join our Engineering Department team.

Reporting to the Utilities Engineer, you will perform a variety of technical work related to **water distribution, sewage collection, waterworks and sewage pump stations & controls** and other related equipment and facilities. Activities required include data analyses, cost estimates, analysis of water & sanitary pump stations, assist in preparation of specifications, implementation of water conservation program, conducting investigations, writing letters & memos, construction supervision for assigned projects and other duties as assigned.

We offer a very competitive salary and excellent benefits package, as well as a great work environment that prides itself on employee satisfaction.

- Must be a graduate of an Institute of Technology in a two (2) year Civil Engineering Technology Program;
- Minimum of two (2) years of experience or acceptable combination of training & experience;
- Possession of a valid class 5 B.C. Driver's Licence;
- Able to communicate effectively;
- Possession of strong computer skills;
- Knowledge of computerized hydraulic network analysis.

If this job is a good fit for you, apply at jobs.chilliwack.com and create your on-line profile.
