

Essential Leadership Training for Today's Workplaces

Today's significant leaders hold themselves to important standards:
Their Empowerment of Others, Their Service and Their Relationships

This powerful 1-Day leadership workshop teaches memorable exercises and features philosophies and concepts from Phil Eastwood's 35 year career in policing and his book *Handcuffs to Handshakes* & is interwoven with leading best practices.

SONAR Leadership provides those rising stars and seasoned leaders with essential skills needed for success in today's fast moving and ever changing workplaces. Full of powerful learning, participants will leave with an effective and professional toolkit, equipping them to be successful leaders, make a significant difference for those around them and achieve outstanding results in their organizations.

SONAR Leadership teaches potent concepts of communication and dialogue - demonstrating to participants, regardless of their organizational level, the importance of connecting with those with whom they work and really listening to what they hear. Just as a **SONAR** does, they must be able to accurately interpret that information. Get it wrong or ignore the sound of approaching danger and you have a problem.

Leadership today is about influence and this workshop charts the course for those who wish to take bold steps into tomorrow's workplaces.
