

Engineering Technician II

Summerland, nestled in the heart of the Okanagan Valley, is a warm, friendly, unique, town with beautiful beaches, orchards, vineyards and mountains. Summerland boasts a beautiful outdoor environment during all four seasons and offers a great quality of life.

The District of Summerland has an excellent opportunity for a highly skilled Engineering Technician II. Under the direction of the Manager of Works, this position will provide technical support and infrastructure capacity analysis, reviews design submissions, develops conceptual designs of engineering services, prepares technical reports, performs inspections of technical engineering projects, and assists in establishing policies, procedures, and strategies related to operational functions of the Works and Utilities Department.

The successful candidate will have strong organizational and interpersonal skills, communicate effectively both verbally and in writing, will have considerable experience with AutoCAD, GIS and related software, and will have thorough knowledge of civil engineering principles, terminology, practices and techniques.

Required training and experience include:

- Senior Secondary School education supplemented by completion of two-year program in civil engineering technology
- Minimum seven years related municipal engineering experience
- Applied Science Technologist Certificate with ASTTBC
- Valid BC Driver's Licence – Class 5

This is a regular full-time Canadian Union of Public Employees (CUPE) position with an hourly wage of \$34.99 - \$38.88 and a competitive benefits package. A complete job description can be found on our website at www.summerland.ca.

Qualified applicants may send a cover letter and resume to hr@summerland.ca by 4pm Friday, June 30, 2017.

We thank all applicants for their interest; however, only those under consideration will be contacted within 2 weeks after the closing date
