

Strata Engineering is currently hiring for an intermediate-level Building Technologist in our Kelowna location. Duties of the job will be tailored to your individual talents and interests, but we need immediate assistance with:

- CAD renderings for both new and existing building envelope design
- Full-cycle engineering investigations from on-site investigation to report compilation
- Construction project field review
- Creation of details and design specifications
- Condition assessments, warranty reviews, and depreciation report inspections

Qualifications:

- 5+ years experience as a technologist or drafter within the building science sector
- ASCT, C.Tech, Dipl. T, or EIT designation
- Valid driver's license and vehicle for field reviews (mileage reimbursed)
- Proficiency with CAD, Revit, Sketch-up
- Well versed in Parts 3, 5, 9 of the BC Building Code
- Experience providing independent field review and assessment of both existing buildings and projects under construction
- Communicative skill with clients, contractors, and engineers alike
- Self-directed with an eye for detail; ready to hit the ground running

We offer a competitive salary, flexibility, good work-life balance, a friendly atmosphere and a great benefits package. Most of all, this position is a chance to carve your own niche and make a big impact on a young and growing firm.

Please apply by sending your resume to: hr@strataengineering.ca

No phone calls please. Due to volume of applicants, only those selected for interview will be contacted.
