

*... a great place to live, work & play*

One of the sunniest regions in BC's Lower Mainland, Delta embraces three unique communities - Ladner, North Delta and Tsawwassen. The Corporation of Delta is looking for dedicated individuals to join our team and share in our commitment to lead the way in public service excellence.

## Engineering Project Technologist (3 positions)

The Corporation of Delta is looking for qualified applicants to fill three Engineering Project Technologist vacancies in the Transportation and Utility divisions of the Engineering Department. The Engineering Project Technologist position involves technical engineering work in municipal infrastructure planning, analysis and design. These positions will act as both a designer and as a construction Project Manager representative so as to ensure compliance with plans and related specifications.

Under the general direction of the Section Manager, an incumbent of this class, through application of prescribed design criteria and established engineering standards, will be responsible for the preparation of: design layouts, detail drawings, specifications, construction estimates, contract documents and other related data, and working drawings will require the approval of a professional engineer. Thereafter, an incumbent is responsible for monitoring, both personally and through engineering inspection staff, the construction of such infrastructure ensuring compliance with plans and related specifications, schedules and budgets. The incumbent is a key liaison by providing project information, assistance and direction to a wide variety of internal and external contacts. Project priorities are established by a superior and within those parameters an incumbent exercises considerable independence of judgement and action in the technical aspects of the work discussing difficult technical problems, policy and budgetary matters with a superior. Work performance is reviewed by a superior in terms of technical adequacy, conformance to established standards and practices and achievement of desired objectives.

### **Desirable Training and Experience**

Applicants must be registered or eligible for registration with the Applied Science Technologists and Technicians of BC (ASTTBC) as an Applied Science Technologist (AScT), Technician (CTech), or as an Engineer in Training (E.I.T.) with the Association of Professional Engineers and Geoscientists of BC (APEGBC). A minimum of 1 year experience in the engineering design or utility master planning/analysis field, preferably in municipal government is desired.

### **Required Licences, Certificates and Registrations**

Valid Class 5 Driver's Licence for the Province of British Columbia.

Eligibility for certification as an Applied Science Technologist or registration as a Professional Engineer within the Province of British Columbia.

The Corporation of Delta provides a competitive salary of \$39.69 - \$46.88 per hour (commensurate with experience), plus an excellent benefits package including Municipal Pension Plan as well as an earned-days-off system. Consideration will be given to previous municipal service in regards to annual vacation entitlement. Interested applicants are requested to apply on-line at [www.delta.ca/employment](http://www.delta.ca/employment), quoting competition #17-125 EX by September 10, 2017.

We thank all applicants for their interest; only those under consideration will be contacted. Preferred candidates will be required to complete a criminal records check.
