

SURVEY TECHNOLOGIST

On Point Project Engineers is an Engineering Consulting firm which provides Civil, Municipal and Transportation Engineering, and Project Management to public & private sector clients. We are highly customer-focused, believe in the strength of a team, and are intent on having a positive lasting impact on the projects we deliver.

We are currently looking to fill one Senior Survey Technician position for full time employment with our ever-expanding team. The successful candidate will be skilled, self-motivated, energetic, and be able to multitask projects effectively in a supportive team environment. A solid foundation in the use of Leica TS02 and Trimble S7 total stations, as well as, TSC3 data collector with Survey Pro Software is essential.

This role will involve assisting the chief surveyor with layout and record surveys for civil works, property line layouts, building layouts, and deformation monitoring surveys. The surveyor will also need to perform all necessary surveys on an individual basis as directed by the chief surveyor, and determine survey needs for construction crews.

Qualifications for this position include a Technical Diploma in Surveying, or equivalent experience, 5 or more years' field survey experience, in-depth knowledge of Survey Pro software, experience with civil plans and survey requirements, basic computer skills and a valid BC driver's license.

Applicants may submit their resume and cover letter in confidence to the attention of Mr. Howard Sharples, On Point Project Engineers Ltd., Suite 111 - 957 Langford Parkway, Victoria, BC, V9B 0A5 or by e-mail to careers@oppel.ca with the subject heading **Senior Survey Technologist**.

We appreciate all applications received; only those shortlisted for an interview will be contacted.
