

Civil Technologist/Engineer

About the Opportunity

Creus has an exciting opportunity for a full time Civil Technologist/Engineer to join our dynamic team. We are preferably looking for an individual who has experience in the site development, civil and municipal civil design with AutoCAD and Civil 3d.

The successful candidate will strive for growth, responsibility and desire to become involved in a diverse range of projects. Creus is a strong advocate of continued learning, growth and development of your engineering skills. You will have the opportunity to continue hands on design and manage projects from proposal through to design, cost estimation, tendering, construction support and final sign off. Establishing & growing relationships with clients is a growth function of this position.

This opportunity will allow you to grow & develop a large range of engineering skills and will open into an equity position for the right person.

About You:

- A member of or eligible to join ASTTBC or APEGBC
- Post-graduation experience in Civil Design with lower mainland experience will be given preference
- Hands on Design Experience in road, water, sanitary, storm infrastructure in the lower mainland
- Strong AutoCAD skills with Civil 3D is an asset
- Requires analytical, problem solving and decision-making skills
- Motivated and enthusiastic
- Great interpersonal & communication skills

About us

Creus is a growing civil engineering and project management consultancy located in the City of North Vancouver. We engage in variety of projects spanning the complete spectrum of our discipline in an effort to keep every day interesting while promoting continual growth and learning. Our areas of expertise include commercial, residential & resort development, municipal engineering, road & utility design, independent power production, septic treatment, hydrology, rainwater management and rezoning.

About the benefits

In exchange for your hard work and dedication, we will happily reward you with a highly attractive salary and benefits package. We recognize that our success is based on the team that we assemble so we are open to negotiation, based on your experience and skills.

Other benefits include:

- Comprehensive Medical and Dental benefits;
- RRSP contributions; and
- Professional development opportunities, including financial assistance.
- Bonus program based on personal and corporate performance

We all know that Vancouver is a great place to live, work and play and we support a healthy work/life balance. We offer our team easy access to Cypress Mountain via our corporate pass and also invite all team members to attend a Canucks game on us each season.

We want you to enjoy coming to work each day, so we have created a positive working environment complete with complimentary monthly lunches, seasonal team trips and events, as well as inter-company social and athletic activities. Upon joining Creus, you will be welcomed into a professional, social and supportive environment where you are encouraged to learn, thrive and grow. Get out from behind your cubicle and become part of a team approach to problem solving!

Creus is located next to the Lonsdale Quay and the Seabus Terminal which provides easy access to Vancouver & transit.
