Company Overview:

ITEC offers mechanical engineering and consulting services for commercial, institutional, medical, dental, religious, recreational, multi-residential, restaurant & school buildings. **ITEC Systems Design Ltd.** was formed in 1976 and since that time has completed a wide range of projects of varying types, sizes and complexities. We specialize in providing engineering design services for heating, ventilating and air conditioning (HVAC), plumbing & performance specifications for fire sprinkler systems for buildings of all types & sizes. In addition to new building design, we also provide design services for building renovations and additions. ITEC offers a competitive salary and benefits package.

ITEC is located at Unit 4 – 20092 93A Avenue, Langley, B.C. V1M 3Y4
