

Civil Engineering Technologist

Cranbrook, BC

About the Opportunity

Our design technologist team (DTT) is an integral part of our professional practice and ability to deliver excellent service to our clients. We are looking for a capable Civil Engineering Technologist to join our Kootenay team from our Cranbrook office.

You will be working with our team members to draft designs from preliminary through to detailed design and inspecting construction projects. Specifically, you can expect to be involved in:

- Carrying out drafting and design assignments with supervision
- Communicating with DTT members and project leaders in multiple offices
- Supporting DTT personnel, some design, drawing production and/or construction specifications
- Ensuring quality control of both design and drafting production work
- Performing a variety of defined assignments with guidance from team members
- Advising team on technical problems and troubleshooting
- Promoting and instilling a sense of teamwork amongst coworkers

About You

Our preferred candidate will have 1-2 years of related experience and be a graduate of an accredited Civil Engineering Technology or Drafting program or equivalent. Given the variety of project needs and a desire to find the right person to fit within our team, we will consider candidates with a range of experience, education, and background in municipal infrastructure detailed design and production, land development and/or transportation. In particular, we are looking for the following skills, strengths and interests:

- Excellent drafting skills with good knowledge of drawing set-up and production
- Proficiency in AutoCAD and Civil 3D (required)
- Proficiency with Microsoft Excel and other MS Office software
- Experience with GIS is considered an asset
- A keen eye for detail and takes great pride in work with both large and small projects
- Effective communication and writing abilities
- Committed to ongoing personal and professional development

About Us

Recognized as one of Canada's top employers, Urban Systems is an employee-owned interdisciplinary consulting firm based in Western Canada. In business since 1975, we have four decades of experience working with a variety of clients including all levels of government, Indigenous communities, commercial and residential land developers, and the natural resource sector. Our team of 400 people, across multiple branch offices, is committed to helping build vibrant communities of all sizes, both large and small.

Our Commitment to You

At Urban Systems we make significant investments in our people, which is why we take great care to hire those who we believe will thrive in Urban Systems over the long term. We've become recognized as a workplace of choice by nurturing a unique culture that sets us apart and provides:

- Challenging and interesting project opportunities
- A fun workplace, where hard work accomplishes great things
- The opportunity to work with industry leading professionals in a collaborative environment
- Ongoing career development and learning
- Meaningful rewards and recognition
