

Civil Engineering Technologist

Kelowna, BC

About the Opportunity

Our Kelowna Design & Construction Practice is currently seeking a Civil Engineering Technologist to join our team as an integral part of our professional practice, helping to deliver excellent service to our clients.

You will be working alongside our team of professionals to provide general drafting and design support from preliminary through to detailed design, as well as periodic on-site inspection of various infrastructure projects throughout Kelowna and the Okanagan region. Specifically, you can expect to be involved in:

- Carrying out design/drafting, drawing production, cost estimating and quantity take-offs, and construction specifications;
- Communicating with Design/Production team members and project leaders across our multiple offices;
- Ensuring quality control and verifying accuracy of both design and drafting production work;
- Performing on-site resident site inspection for local projects;
- Advising team on technical problems and troubleshooting; and
- Promoting and instilling a sense of teamwork amongst coworkers.

About You

Our preferred candidate will have 2-3 years of practical experience, be a graduate of an accredited Civil Engineering Technology or Drafting program or equivalent, and be registered, or eligible for registration as a Technologist with ASTTBC.

Given the variety of project needs and a desire to find the right person to fit within our team, we will consider candidates with a range of experience, education, and background. Preference will be given to those candidates that have previous experience in municipal infrastructure detailed design and production, land development and/or transportation. In addition, we are looking for the following skills, strengths and interests:

- Excellent drafting skills with good knowledge of drawing set-up and production;
- Strong proficiency in AutoCAD and Civil 3D (required);
- Proficiency with Microsoft Excel and other MS Office software;
- Ability to interpret construction plans and drawings, accurately perform mathematical computations, review and interpret engineering data and make sound decisions based upon the foregoing information;
- Strong understanding and experience working with CCDC and MMCD Contract documents;
- Field/construction experience is considered an asset;
- A keen eye for detail and takes great pride in work with both large and small projects;
- Effective communication and writing abilities; and

- Committed to ongoing personal and professional development.

About Us

Recognized as one of Canada's top employers, Urban Systems is an employee-owned inter-disciplinary consulting firm based in Western Canada. In business since 1975, we have four decades of experience working with a variety of clients including all levels of government, Indigenous communities, commercial and residential land developers, and the natural resource sector. Our team of 400 people, across multiple branch offices, is committed to helping build vibrant communities of all sizes.

Our Commitment to You

At Urban Systems, we make significant investments in our people, which is why we take great care to hire those who we believe will thrive in Urban Systems over the long term. We've become recognized as a workplace of choice by nurturing a unique corporate culture that sets us apart and provides:

- Challenging and interesting project opportunities
- A fun workplace, where hard work accomplishes great things
- The opportunity to work with industry leading professionals in a collaborative environment
- Ongoing career development and learning
- Meaningful rewards and recognition

How to Apply

If this describes your background, your skills and your natural talents, please check out our website for more information and submit your resume and covering letter along with a completed Candidate Questionnaire (available for download on our site).

Deadline for applications: **Friday, February 16, 2018**
