

## MY WORK CITY

### Traffic Technician - Training Opportunity Traffic Operations

#### Move your career in the right direction!

The City of Kelowna has an exciting opportunity within our Public Works Department as a Traffic Technician (Training Opportunity).

The ideal candidate holds a Civil Engineering Technology or Transportation Engineering Technology Diploma, some related work experience, and a Class 5 Driver's License. As a strong communicator, problem-solver and team player, you will deliver excellent internal and external customer service.

Within our Traffic Operations team, you will be a key contact on traffic issues and will work collaboratively with other City departments, consultants, developers and external agencies to make our transportation network safe and efficient. Some of your key responsibilities include road safety and operational assessments, roadway design review, traffic data analysis, policy and bylaw development, preparing designs and statutory records for traffic signs and road markings.

This is a CUPE bargaining unit position that works 40-hours/week. The training rates for this position range from \$33.74 to \$34.80 per hour (depending on training plan); once fully qualified, the pay-rates start at \$35.50 per hour and progress to \$40.85 per hour (2017 rates). We offer a competitive benefits and pension package, career development, and progressive employment practices. Contribute to our vision to be the best mid-sized city in North America!
