FEBRUARY 19, 2018

Job Title:
QA Associate

Location:
Vancouver, BC Canada (candidate will be responsible for any relocation expenses)

Business Description:
We are a Vancouver based company aiming to revolutionize the current drug delivery methods by commercializing novel and innovative intradermal injection platform.

Job summary:
If you are an enthusiastic Quality Assurance (QA) Associate with 2+ years of experience in medical devices or pharmaceuticals QA, and able to work within cross-functional teams, we need you to help establish the quality system and drive compliance to ISO 13485 Quality Management System and FDA Requirements.

In this position, you will apply your QA knowledge to ensure that procedures, specifications, and manufacturing process controls are appropriately documented and followed. You must be able work effectively in a fast-paced and dynamic environment, and can adapt to new challenges quickly. In addition, you will be working and interacting with the entire community of ventures in the [Hatch Incubator](#) and [Creative Destruction Labs](#) ecosystems to build a massive and impactful business.

You will also be responsible for:

- Establish and implement quality systems compliant with ISO 13485 and FDA QSR
- Audit for compliance to policies and procedures and report on the performance of the quality system
- Conduct QA review of process validation documentation and SOPs
- Specify quality requirements of materials and parts with suppliers
- Document product development process
- Maintain and update protocols, procedures, processes, solutions and results reports related to implementation and monitoring of quality assurance measures

microdermics
