

Sr. CADD Technologist Nanaimo, BC

Do you want to employ your CADD skills as an integral part of a respected Civil Engineering team? Do you take pride in delivering top quality drawings in a timely manner? Are you motivated to work hard and reap the rewards of producing results to a high standard?

Interested? Read on . . .

About Us

- A growing 15-person Civil Consulting Engineering firm in Nanaimo, BC
- Strong work ethic and reputation for excellent client service since 1995
- An attractive environment in an oceanfront community on Vancouver Island

What We Offer

- Lots of work to keep everyone challenged
- A team of committed professionals who enjoy working together to achieve common goals
- Competitive salary and an excellent benefits package
- Opportunity for growth and ownership

About You

- Minimum 10 years of experience as a CADD Technician
- Degree or diploma in Civil or Engineering Technology or technical designation with strong civil engineering experience
- Excellent working knowledge of AutoCAD Civil 3D and Microsoft Office
- Experience with design and creating drawings for land development, site servicing and site grading including volume calculations
- Bonus points if you have experience in Central Vancouver Island

Your Work With Us

- Work alongside project engineers to create design packages for land development and site servicing projects.
- Prepare volume calculations for site manipulation and grading
- Provide CADD support for projects from preliminary design concept to final record drawing preparation.
