MECHANICAL TECHNOLOGIST

Avalon Mechanical Consultants Ltd. currently has an opening for a Mechanical Technologist in our Victoria office. Experience producing construction documents, plans and calculations in the fire suppression, plumbing, and HVAC disciplines is preferred but not required.

Applicants are required to have the following qualifications for this position:

- AutoCAD proficiency
- Experienced with Microsoft Office Suite – specifically Word, Excel, and Outlook
- Completion of a Technology Diploma or Technician Certificate
- Possesses a good attitude and is an ambitious learner

Compensation and benefits for this position are to be discussed with applicants on an individual basis.

Avalon has been operating in Victoria since 1984. We are a growing team with two offices on Vancouver Island of skilled, knowledgeable staff with a proven history of expertise in mechanical design having completed thousands of projects in a range of industries.

Please submit your resume and cover letter to careers@avalonmechanical.com
