

Lake Country is one of the Province's fastest growing municipalities! We are a vibrant community of approximately 15,000 citizens located in the heart of the rapidly growing Okanagan Valley, less than a half hour drive from Kelowna and mere minutes to beautiful orchards, wineries, farms and the serenity of the Okanagan lakes. Residents enjoy hot summers and temperate winters with boundless opportunities for year-round recreation – from water sports to cycling, golfing, skiing, hiking and much more. If you are searching to relocate to a community that truly has it all, join our team and experience 'Life. The Okanagan Way!'

Full-time Vacancy – Engineering Technician II

We are looking for an awesome GIS Tech to join our team, do cool work, have fun and make a difference.

This role is primarily focused on Geographic Information System (GIS) services and Business Solutions for Public Works and the organization. Using your GIS knowledge and skills, you will utilize applicable software to accomplish tasks such as:

- GIS Governance
- Requirements gathering and solution design
- Geodatabase design and administration
- Maintaining and utilizing the Districts ArcGIS online organization, including building web mapping applications with out-of-box templates and web app builder
- Working with staff and consultants for data maintenance, project implementations and the execution of the GIS and Business Solutions Master Plan
- Automating workflows and data maintenance
- Creating and maintaining Metadata AND/OR
- Applying your strong customer service skills as you respond to GIS related inquiries and requests from internal staff

You will have experience developing relationships with others in your field and value collaboration, as well as Enterprise Information Management best practices that encompass data structure, data reliability, user experience and business intelligence. Your work considers short and long term objectives as well as the business units you support.

You will be responsible for providing guidance and supervision to GIS students, compiling and coordinating work plans for their terms.

Other tasks may be required to support Infrastructure Services with the coordination of annual capital works and maintenance, tenders and other similar projects.

Experience with geocentric work and asset management systems is considered an asset.

You feel comfortable wearing multiple hats and working within a multidisciplinary team environment. If you thrive in a fast paced, fun and innovative environment, then come apply your superior GIS skills with us! This role offers opportunity for advancement and career growth.

Job Qualifications:

The preferred candidates will have completed an engineering technology diploma or diploma in a related discipline and eligibility for a certificate of registration as an applied science technologist in geomatics. A minimum of five years' related experience in GIS and/or engineering planning and design with municipal systems and services as well. Candidates must possess strong interpersonal and communication skills and have solid Project Management capabilities. The hourly rate of pay for this unionized position is between \$30.98/hr and \$36.87/hr (2018 rates).

For a detailed job description, and more information about Lake Country please visit the District's website at www.lakecountry.bc.ca.

Applications will be received
Until 4:00 pm on May 4, 2018

APPLICATIONS WILL ONLY BE ACCEPTED THROUGH OUR WEBSITE AT WWW.LAKECOUNTRY.BC.CA

We thank all applicants for their interest, however, only those selected for an interview will be contacted.
