

# Career Opportunity

**Position Title** Intermediate/Senior Civil Engineering Technologist

**Status** Full-time, permanent

**Location** Prince George, BC

## Overview

**McElhanney Consulting Services Ltd.** seeks an **Intermediate/Senior Civil Engineering Technologist** for our Prince George, BC office. This role is ideal for someone looking for potential to grow and his or her design/construction engineering experience will be utilized on a wide variety of land development, municipal, and construction projects. The successful candidate will be an expert with Civil 3D, AutoCAD, and other technical software.

## Responsibilities

- Assist in the production of engineering designs, drawings, specifications, cost estimates and tender documents for projects such as potable water, sanitation, stormwater management plans, roadway design, site grading and drainage systems
- Take projects from preliminary concepts and sketches into engineering designs, plans, and project documentation requirements, using primarily Civil 3D, as well as other technical software as needed
- Coordinate the preparation of documents required for regulatory approvals, prepare construction cost estimates and tender documents/contracts
- Coordinate with other team members to ensure schedules, budgets and quality control standards are achieved
- Identify issues and facilitate corrective measures, think independently
- Liaise with contractor, clients/owners and affected stakeholders
- Supervise and/or provide training and mentorship to more junior technical staff

## Requirements

- Diploma in Civil Engineering Technology plus 5 years' experience in municipal design and construction
- Registration as an A.Sc.T. or other technical accreditation is an asset
- Advanced proficiency in Civil 3D Software is essential
- Excellent attention to detail
- Excellent communication, client management, and relationship-building skills
- Experience with administering construction contracts
- Ability to work without supervision as well as within a busy and close-knit team environment
- Experience in the training/supervising of junior technical staff would be an asset

## Benefits of working for McElhanney

- We differentiate ourselves by maintaining 25 locally based offices with strong community ties throughout Western Canada, supported by specialists in major centers
- With over 1,000 employees, we are proud to be Canada's oldest consulting engineering and planning firm, receiving the Canada's Best Managed Companies Award
- Over the past 10 years our projects and people have won over 60 awards provincially and nationally; we believe this accomplishment to be unequalled by any other consulting firm in Western Canada
- We are an independent, 100% employee-owned, multidisciplinary company of technical professionals managed by technical professionals
- We offer a full benefits package, competitive salaries, annual performance bonuses and the potential to become an owner of the company, sharing in the rewards of our collective efforts
- We offer many company-sponsored professional development activities, support continuing education for our staff, and encourage professional/business association involvement.
