

## Exciting Engineering Technician Opportunity in Nanaimo, BC

Come work with one of the top engineering & surveying companies on Vancouver Island.

**J.E. Anderson & Associates (JEA)** has an immediate opening for a Construction Inspector/Survey Layout technician in our Nanaimo, BC office. This role provides challenging opportunities on many different types of projects. This is a full-time position.

JEA provides competitive salaries and benefits in addition to opportunities for advancement.

### Responsibilities

- Calculate construction survey layout
- Provide construction survey layout either with a survey assistant or using the Robotic DTM and RTK GPS systems.
- Provide construction site reviews on all types of civil engineering projects
- Prepare construction site review reports
- Coordinate site meetings with contractors and approving agencies
- Coordinate work with other consultants/team members

### Requirements

- Preference is given to graduates of accredited Civil Engineering Technology programs and eligible for registration with ASTTBC
- 2 to 5 years experience preferred
- Familiar with Autodesk Civil 3D 2018
- Experience with Leica survey instruments, GPS and data collectors
- Excellent verbal and written communication
- Work independently to complete assigned tasks and responsibilities
