

Vector engineering services ltd.

Vector Engineering Services Ltd has been providing municipal infrastructure, survey, design and construction management for land development and capital works projects throughout the Lower Mainland of British Columbia since 1960. Vector prides itself in its 22 member team of dedicated professionals and support staff which provides unparalleled civil engineering consulting services. Our team strives to exceed customer expectations and gain their trust through exceptional design, efficient pricing and customer service while considering the future sustainability of our province.

Requirements:

- Experience in civil engineering discipline, specifically in municipal/land development.
- Working knowledge of Civil 3D and AutoCAD software.
- Ability to liaise effectively and clearly with clients in English, both written and verbal.
- Ability to work to challenging deadlines and under variable work volumes.
- Waterworks, sanitary works, storm and roadworks are the main areas of civil design.
