

## **FIRE SERVICES TECHNICIAN PORT COQUITLAM, BC**

### **POSITION SUMMARY**

We are seeking an experienced Fire Services Technician to perform a highly skilled level of work in the inspection and maintenance of fire alarm systems, emergency lighting, sprinkler systems and fire extinguishers. Experience in the inspection and testing of fire suppression systems and backflow preventers would be beneficial. This position will be based out of our Port Coquitlam location but will also involve remote service at additional customer locations.

### **DUTIES AND RESPONSIBILITIES**

- Conduct routine inspections of fire alarm systems, wet and dry sprinkler systems, fire extinguishers and emergency lighting.
- Perform both routine and preventive maintenance on systems including both conventional and addressable.
- Testing, inspecting, maintenance, and operation of fire sprinkler systems and components.
- Conduct inspections and testing of fire protection systems; following prescribed procedures according to CAN/ULC guidelines and applicable NFPA guidelines.
- Make recommendations regarding deficiencies to ensure system meets code compliance.
- Complete inspection reports and other relevant paperwork as per company standards
- Attend to emergency calls both in normal operating hours, evenings or weekends
- Participate in Health and Safety initiatives including the development of JHA's and Safe Work Practices relevant to the role
- Travel out of town with potential of overnight stays when required to assist other Levitt-Safety Branches or to complete job assignments.
- Other duties as assigned

### **QUALIFICATIONS**

- Grade 12 or equivalent
- ASIT certified in related disciplines as a Fire Services Technician. Fire Alarms, Emergency Lights, Fire Extinguishers and Water Based Systems (Sprinklers)
- Minimum of four years' experience
- Meticulous in completing reports and records
- Excellent verbal and written communication skills
- Intermediate level computer skills (Outlook, Word, Excel)

## **ADDITIONAL QUALIFICATIONS**

- Background in a servicing fire extinguishers is ideal
- Training in VFSS an asset
- Ability to test and inspect Fire Suppression Systems beneficial
- Current Backflow certificate preferred
