

Project Technologist

- **Join one of BC's Top Employers!**
- **Use your project experience to help improve the lives of others!**
- **Be part of an exceptional company culture with great employee benefits and a healthy work/life balance!**

BC Housing is a trusted leader and partner in providing housing solutions for British Columbians. Through safe, affordable and quality housing, we truly make a positive difference in people's lives and communities.

An exciting opportunity awaits!

We have an exciting opportunity for multiple, full-time **Project Technologists** to play a pivotal role in the renovation and renewal of social housing buildings across the Province. Based at our conveniently located Burnaby office and travelling to sites when required, you'll experience a sense of accomplishment as you work on a range of housing properties, overseeing design and construction and ensuring compliance with municipal standards.

As a Project Technologist, you'll use your critical thinking skills and knowledge of BC Building Code/municipal approval process to review specifications, perform site inspections, manage the work of consultants and contractors, complete contract administration, and provide technical services support, as required.

You'll be a great fit for this role if you have great communication skills, a positive attitude and a **diploma from a building, engineering or architectural technology program**. Eligibility for designation as an ASCT (Applied Science Technologist) or CET (Certified Engineering Technologist) with ASTTBC (Applied Science Technologists & Technicians of BC) is a definite advantage, but not essential.

Due to the nature of this role, a valid BC driver's license, access to a reliable vehicle and the ability to travel is also required.

The benefits of joining a Top Employer!

We didn't become one of BC's Top Employers and one of Canada's Greenest Employers without a lot of thought, care and consideration for our team and environment. Upon joining BC Housing, you'll be warmly welcomed into our **supportive and collaborative workplace** that balances engaging and challenging work with personal downtime and wellness initiatives.

All of our employees are rewarded with a competitive remuneration package and a host of great benefits.
