

The Company

Established in 1996, Enerpro Systems Corp. is the market leader in advanced building energy management systems. We combine state of the art technologies and services to reduce the cost and consumption of energy and water while reducing greenhouse gas emissions. The company specializes in multi-family residential and commercial developments in British Columbia and Alberta. We have a talented and dedicated team that is passionate about the environmental and financial benefits it provides to our clients.

The Role

Enerpro Systems Corp. is looking for a full-time **Field Technician** to join our team. The focus of this position is to install the integrated Energy Management System (iEMS) equipment. The primary functions include equipment installations, commissioning, and maintenance.

The Key Responsibilities

- Install and terminate metering and control components based on project documentation.
- Commission energy management systems, including working with sub-trades where required.
- Replace faulty or malfunctioning components.
- Create commissioning reports to track components and operational status.
- Assist in the coordination of project documentation related to all agreements.
- Coordinate delivery of materials required to be at a project site, start-up, and commissioning of installed systems.
- Communicate with staff of the work completed by contractors and sub-trades.
- Maintain, repair, upgrade, install, and troubleshoot controls and equipment for projects under contract.

Key Requirements

- Minimum two years of field experience with building controls or process automation.
- Experience using PLC controllers and programming tools.
- Basic understanding of computer networking.
- BC certified electrician an asset, but not mandatory.
- Valid BC Driver's License with clean abstract and no restrictions.
- Ability to work under pressure and multi-task in a fast paced environment.
- Work independently and as a team-oriented player.
- Excellent problem solver.

Enerpro Systems provides a competitive salary and benefit package. To apply, please submit your resume and cover letter, stating your salary expectations, to careers@enerprosystems.com.

We thank all candidates for their interest. We will only be contacting the individuals that are invited for an interview.

Creating Value from Energy
