## Technical Specialist Okanagan Ready Mix Division Competition #18-157

### ***Excellence. Integrity. Passion.***

*Since 1912, BURNCO has been supplying aggregate construction materials as a successful, family-run business based in Calgary. Over the last 106 years we have embraced innovative technology and new marketplaces while always maintaining the vision and values that were first introduced by our founder, James F. Burns. Today we continue our unwavering commitment to safety, our renewed focus on family leadership and our steady, dependable growth into the future. We look forward to having you join us on that journey.*

BURNCO is currently recruiting a full time **Technical Specialist in** West Bank. This is an integrated role with areas of responsibility in Technical Sales and Quality Control, for plants in Vernon, Penticton, and West Bank. This position reports directly to the Area Manager – Ready Mix and functionally to the Corporate Quality Assurance Manager.

### **Responsibilities:**

- Concrete quality control testing
- Schedule and completion of batch trials
- Maintenance of regional concrete mix designs and data
- Inspection and testing of concrete materials
- Audit of plant quality control testing procedures and inspection of testing equipment
- On-site investigation of quality related issues
- Post job investigation and analysis
- Complete/Assist Technical Sales Team with completion of mix submittals and provide information/recommendations for quotes
- Recommend mix designs/provide mix information based on performance specifications outlined by the Technical Sales representatives
- Promotion of performance enhancing products
- Troubleshoot and make recommendations to maintain high quality ready mix product
- Other duties as assigned by the Area Manager or Corporate Quality Assurance Manager

### **Preferred Qualifications:**

- Outgoing personality and willingness to communicate with client representatives
- Combination of sales and technical experience
- Technical education in a related capacity
- Strong knowledge of concrete testing procedures, CSA, ACI, ASTM
- Highly motivated and able to work with minimal supervision
- Must have excellent written and verbal communication skills (including technical writing)
- Experience placing and finishing concrete is considered an asset
- Willing to travel between locations as required
